

NEVER TOO OLD with Mustafa™

SPEAKER ONE-SHEET · FOR EVENT HOSTS

Inspiring lifelong learning after 60 — written and presented by a senior, for seniors.

THE TALK — “NEVER TOO OLD FOR AI”

An easy, no-jargon introduction to artificial intelligence, designed especially for older audiences who've heard all the buzz and aren't sure where to begin. Warm, encouraging, and genuinely useful — the kitchen-table conversation, live.

- Friendly and jargon-free — nobody feels left behind
- Real, practical examples seniors can use that day (health, family, travel, money)
- Clear safety guidance to avoid online scams
- Time for questions — and signed books available

ABOUT MUSTAFA AHSAN SIDDIQUI

Mustafa Ahsan Siddiqui is the founder of the Never Too Old with Mustafa™ series. A retired financial and consulting industry executive, he bought his first computer in 1983 and has been a curious adopter of new technology ever since. A grandfather of eight who has traveled to more than sixty countries, he writes from his home in Minnesota.
